

# U.S. Takes 2 Towns, Loses Near Taejon; Reserves, National Guard Being Called

## Will Check On Security Of Nation

Next Few Months to See 2 Million Americans in Uniform as Limit Is Raised

### Notices in Mail

All Services Calling Up Trained Veterans to Fill Ranks

Washington, July 22 (AP)—The number of Americans in uniform probably will climb over the 2,000,000 mark within the next few months.

The armed forces have indicated as much to the House Armed Services Committee—which, like its Senate counterpart, voted yesterday to throw out the 2,000,000 ceiling on military strength previously set by Congress.

That ceiling compares with a present army-navy-air force-military strength of about 1,450,000. To build toward the higher figure, all of the services except the air force have announced that they are calling up reserves. The air force has hinted that it may do so in about a week. The marine corps, in a move to keep its pool of reservists intact, announced a virtual ban on transfers from the organization to the voluntary—or inactive—reserve.

Calling Men New  
The army said yesterday it is dipping into its 932,000-man pool of National Guard and reserve strength. Some notices are now in the mail.

To speed the build-up, the Senate yesterday voted unanimously to permit the armed services to hold men a year longer than their terms of enlistment. The House is expected to do the same Tuesday.

This move to prevent the loss of trained and skilled men reportedly was taken at the request of Gen. Douglas MacArthur, commander in chief of the Far East Command.

## Fishermen Report Russian Sub Off Newfoundland

St. John's, Nfld., July 22 (AP)—The Sunday Herald, a weekly paper, said today Russian submarines have been sighted on the Grand Banks of Newfoundland.

The story said the submarines surfaced on the fishing banks and were sighted by Newfoundland fishermen. There was no official confirmation here.

The story follows reports from other parts of the Atlantic provinces that unidentified underwater craft have been sighted. A sub surfaced on the George's Banks off Nova Scotia some weeks ago and another was sighted near Saint John, N. B., earlier this week.

George Tiner, a New Brunswick fisherman, said Thursday that when he started to pull up one of his lobster traps off Chance Point harbor, a submarine surfaced in dense fog.

The 62-year-old fisherman said the craft crash-dived almost immediately.

## Elected Chairman Of Ulster Red Cross Chapter

Codwise Named to Top Post Formerly Held by Fabian L. Russell Since 1945

G. WALLACE CODWISE

G. Wallace Codwise of Kingston was elected chairman of the Ulster County Chapter, American Red Cross, at a meeting of the board of directors held Friday evening at the Chapter House at 308 Clinton avenue. Mr. Codwise, who has served as first vice-chairman for several years, succeeds Fabian L. Russell of Saugerties, who has been chairman since January 1, 1945.

Elected to serve with Mr. Codwise was Alexander B. Shufeldt, first vice-chairman. Mrs. Samuel Adams of Saugerties, second vice-chairman. Robert C. Murray was re-elected treasurer and Mrs. Charlotte W. Tuppen was again elected secretary.

Dr. Victor P. Salvatore of Highland sent his resignation as a member of the board of directors and Mrs. William Coy of Clintondale was elected to serve out the term of Dr. Salvatore.

Report on Disaster  
Walter T. Tremper, chairman of the Disaster Committee, gave a report on preparations which have been made to handle any emergency which the local Chapter may be called upon to meet.

In the event of a disaster in the metropolitan area many would seek refuge upstate and plans are being developed to meet any such emergency and provide shelter and emergency food.

In leaving the chapter as chairman, Mr. Russell thanked the board of directors and members of the Red Cross for the splendid operation which has been given him and he paid particular tribute to the volunteer workers both in routine Red Cross work and in the Campaign for Funds each year.

Frales Russell  
Vice-chairman A. B. Shufeldt said Mr. Russell had been "one of the greatest chairmen the Red Cross has had" and paid a high tribute to Mr. Russell and his administration during the post-war period when, with the war emergency over there had been a possibility that interest in Red Cross work would be difficult to keep at a high level. However, the Ulster County Chapter and interest in its work and finances has been maintained at a very high standard.

Mr. Russell referred to the "critical time" in which Mr. Codwise had taken over.

butcher who lives in the same block.

Squegilia said they beat him with fists and gun butts as he tried to protect his day's receipts of nearly \$1,500.

Squegilia managed to swing the car into the curb where it stopped. And Loreto came running up. Witnesses said one of the gunmen fired at the patrolman twice, point-blank, and then both fled as he fell to the ground.

They ran through a vacant lot, separating, with witnesses following afoot and in cars.

The pursuers alerted other police, and the two men were run down and taken into custody without a struggle.

They were identified as Rudolf Santobello, 25, and John Corbo, 32, both of the Bronx.

Both Santobello and Corbo were questioned extensively throughout the night.

## Rock From Blast Kills Worker on New Paltz School

Frederick W. Cook, 24, Dies Instantly; Men Deny Hearing Any Warning

Frederick W. Cook, 24, Rosendale, an ironworker employed on the New Paltz State Teachers College construction job was instantly killed Friday afternoon about 3 o'clock when struck on the head by a rock which had been thrown up by a blast, according to Coroner Arthur Chipp of Kerhonkson.

Dr. Virgil W. DeWitt was summoned but Cook was dead on arrival of the physician.

Coroner Arthur Chipp of Kerhonkson was summoned and state police from the Highland station investigated. A verdict of accidental death was given by Chipp.

Shower of Rocks  
Chipp said Cook, under Foreman Ned Smith of Pleasant Valley, and two other ironworkers were on the second floor of building G, some 300 feet away from the point where the blast was set off. In an adjoining building were 15 carpenters at work. The buildings were showered by blasted rock, Coroner Chipp said the men reported.

The blasting operations were being carried out by the B. J. Costantini Corporation of 60 New Street, Kingston, under Anthony Costantini, Charles Post of 13 West (Continued on Page 10, Col. 2)

## Sickler Serious After Accident on Saugerties Road

Four people were injured, one seriously, in a two-car accident on the Saugerties road at 6:50 p. m. Friday when state police say the operator of one of the cars went to sleep. The accident happened about five miles south of Saugerties near the P.V.I. Inn at Glenview.

George Sickler, Sr., of 173 Lincoln street, Kingston, was reported in serious condition at the Kingston Hospital today. He suffered several fractured ribs and lacerations of the face and arm. His son, George Sickler, Jr., 35, same address, driver of the car, suffered abrasions of the forehead and lacerations of the scalp. His condition was reported as fair today.

Barney Slutskin, 42, of 175 East 18th street, Brooklyn, operator of the second car, was reported in good condition at the hospital. He had abrasions of the left elbow, forehead and cheek.

Philip Belasco, passenger in the (Continued on Page 10, Col. 2)

## Broad Plans to Safeguard N. Y.

New York, July 22 (AP)—New York is getting its guard up. Spurred by war signs, officials have put civilian defense preparations on a rush-order basis.

The hastened program is statewide, but the emphasis is on New York city, considered the focal point of danger in any atom-bomb attack.

Broad plans are being mapped to try to safeguard the sprawling metropolitan area's 14,000,000 inhabitants in event of an emergency.

Most of the activating of civil defense machinery has come since the Korean outbreak. Installed last week as head of the state's nine-man civil defense commission, Gen. Lucius D. Clay, former U. S. military commander in Germany, put the matter this way: "We must face the realities of the existing situation in which ordinary prudence requires us to be prepared against any eventuality."

Key state and city officials have been enlisted in the multiple effort to provide ample warning of any threatened raid, state it off if possible, and repair the damage if it comes.

618 Air Raid Posts

Here is the progress report to date:

1. Throughout the state, 618 air raid observation posts have been established on hill-tops and high buildings at eight-mile intervals.

Manned by 14,000 volunteers, the posts are linked by telephone to four flight-charting filter centers, which, in turn, have the duty of alerting endangered communities, and reporting to air force interceptor bases.

2. The State Health Department has trained 93 specialists in treating atom-bomb casualties. Within the next two months, the training is to be passed on to state nurses and 15,000 private physicians.

City Biggest Problem

3. Clay, who terms New York city "the biggest defense job," says a special plan is being worked out to evacuate its residents to safer areas if conditions warrant.

Former Police Commissioner Arthur W. Wallander, newly-named director of the city's civil defense, is working with transit officials on a possible mass exodus plan by rail, boat, bus and subway.

4. The State Department of Commerce on Clay's orders, is compiling a list of hotels and other accommodations in the state in which evacuees from congested areas could be housed. Potential quarters for emergency hospitals also are being listed.

5. The State Department of Public Works has been instructed to inventory all state and privately-owned construction equipment for the repair of roads, highways, rail and airport

facilities, and to be ready for emergency mobilization within 30 days.

6. New York city is establishing a special defense communications network, utilizing fire and police department radio and telephone systems, and the city's radio station, WNYC. A New York Telephone Company official, James M. O'Brien, has been assigned to the project on a full-time basis.

7. City Health Department teams are being set up for detection of radio-active gassed areas.

Check Food Supply

8. The State Agriculture Department has assembled data on the state's stockpile of food in cold storage and warehouses, and trained field inspectors to detect possible contamination through chemical or bacteriological warfare.

At the end of his first week in his new job, Clay said:

"We are in pretty good shape. Our plans have advanced to the stage, where, if an emergency occurred, the state agencies would be in a position to do a great deal of work toward maintaining law and order."

He said test drills are planned on various aspects of the program.

"No plan is good," he said, "until it has been tried out."

## Negroes Routing Invaders

Battle Rages 16 Hours With House to House Fighting and Hard Artillery Fire

### Use Pincer Drive

Vast Movement Makes Yanks Fall Back West of Taejon

Tokyo, July 22 (AP)—American troops drove the North Koreans from two strategic towns in eastern Korea but fell back on the western Taejon front today before one arm of a vast Communist pincer movement.

Americans took over the ruins of Yongdok Friday under cover of heavy allied naval gunfire.

The town is on the east coast 25 miles north of the First Cavalry Division beachhead at Pohang. It was reported destroyed by American and British naval guns Wednesday.

Negro troops of the 25th Infantry Division routed the invaders from Yechon Friday after 16 hours of artillery attack and house-to-house fighting.

Yechon is 50 miles inland and in line with the northern arm of a Red pincer aimed at cutting the U. S. rail supply line from the southeastern port of Pusan. Pusan supplies the U. S. 24th Infantry Division fighting the holding war on the Taejon front.

Gather for Drive

The northern point of this pincer arm appears to be at Mungyong, 20 miles northwest of newly-recaptured Yechon. There the tanked 15th Red division was reported gathering reinforcements for a drive south to Kumchon, on the Pusan-Taejon railroad 40 miles southeast of Taejon.

The southern arm of the Communist pincer is formed by two (Continued on Page 10, Col. 4)

Stichman Praises Po'keepsie Party On Housing Deal

Poughkeepsie, N. Y., July 22 (AP)—State Housing Commissioner Herman Stichman yesterday praised Poughkeepsie's Democratic mayor but said that Albany's Democratic city administration turned down \$5,000,000 in public housing aid for political reasons.

The commissioner spoke at ground-breaking ceremonies for Poughkeepsie's \$2,350,000 W. W. Smith state housing project for 186 low-income families.

He credited cooperation by Poughkeepsie's Democratic mayor and Republican Common Council for making the new project possible. If the city wants it, he added, another \$3,000,000 has been earmarked for a 260-unit state housing project here.

"Albany has a serious housing problem," Stichman said, "but as a matter of politics the Democratic administration there has refused to help low income families."

"Last year I offered Albany \$5,000,000 for public housing but it was refused purely for political reasons," the commissioner said.

Albany's Mayor, Erasmus Corning, is vacationing in Maine and could not be reached for comment.

Carry Out Big Purge

Berlin, July 22 (AP)—The Communists in Romania have purged one-fifth of the party membership in the past 18 months, the Soviet-licensed A. D. N. news agency said today. In a dispatch from Bucharest, the semi-official agency said 132,000 Romanian Communists were expelled "for corruption, opportunism and a harmful attitude."

Washington, July 22 (AP)—Republicans are loading up for at least one more shot in the fiery row over the Communist-in-government charges of Senator McCarthy (R-Wis.).

For two days the Senate has been caught up in a furious controversy over a Democratic report branding McCarthy's charges as a fraud and a hoax.

While it looked as though the wranglings were generally petering out, Senator Ferguson (R-Mich.) said he will speak on the subject Monday, adding that he had dug up some material that he was unwilling to disclose in advance.

The report in question, written by the three Democrats on a Sen-

ate Foreign Relations Subcommittee which investigated McCarthy's charges, was accepted by the Senate on a straight party-line vote Thursday, after a bitter dispute.

One of the two Republicans on the inquiry group, Senator Lodge (Mass.) submitted a minority report accusing the committee of conducting an inadequate investigation; the other C.O.P. member, Senator Hickenlooper (Iowa), indicated that he may air his views in still another report.

Yesterday, Senators Jenner (R-Ind.) and Ives (R-N.Y.) resumed the angry debate over the issue, choosing as their target the chairman of the inquiry group, Senator Tydings (D-Md.).

## Flushing Boy, 5, Dies After Mishap At West Saugerties

Youngster Walking Along Highway Struck by Car Driven by Anna Hommel

Wayne Peters, 5, of 141-39 78th Road, Flushing, L. I., was fatally injured Friday about 1:55 p. m. when he was struck by a car operated by Anna Hommel, 60, of Route 2, Saugerties, at the hamlet of West Saugerties.

State Police at Lake Katrine, who investigated the accident, reported the lad was walking west on the county road in West Saugerties where he was a summer boarder, when the car of Anna Hommel, proceeding in the same direction struck the lad.

The Conner ambulance conveyed the boy to the Benedictine Hospital where he died at 1:45 a. m. today.

He was injured about the head, suffering a fractured skull and lacerations of the scalp.

A further investigation is being made.

Petitioners Arrested

Pittsburgh, July 22 (AP)—For the third time in two weeks police have arrested circulators of petitions attacking American intervention in Korea. Three women were arrested in the Hill district yesterday after they had obtained about 100 signatures to the petition.

Police Lieutenant Stanley Maskell arrested the trio on charges of violating a city ordinance prohibiting soliciting. They were released on \$25 forfeits for a hearing today.

## Prices Hit Highest Peak As Korean War Approaches

Statistics Show Nine Per Cent Increase During May-June Period With Food Out in Front; President Truman May Force Controls

Washington, July 22 (AP)—The sharpest retail price rises in two years were announced by the Bureau of Labor Statistics today for the May 15-June 15 period—before the outbreak of the Korean war. The agency said prices rose .9 per cent from mid-May to mid-June, with food prices soaring 2.1 per cent over the figure for the previous 30 days. Meats, eggs, fruits and vegetables jumped the highest.

The significance of this announcement is that even before the Korean fighting broke out on June 25, prices were not only going up but were gathering speed in their ascent.

The May-to-June increase topped the .8 per cent rise reported last month—a rise described then as "the greatest percentage increase during any month since July 1948."

Since the fighting began, new and apparently bigger rises have occurred.

Determined on Controls

President Truman has told Congress he may have to ask for power to control prices. Yesterday Rep. Sabath (D-Ill.) said after a visit to the White House that Mr. Truman is determined to seek that power "if he can't get them to stop the increases."

The Bureau of Labor Statistics (B.L.S.) in giving out its regular "consumers' price index," furnished no figures on what has happened since June 15.

On that topic the announcement drily said what everyone knows—"additional advances in consumers' prices since mid-June will be reflected in the index for July 15."

The June 15 index was 170.2 per cent above the average of 1935-1939. This was the highest since January 1949, but still below the record high of 174.5 in August and September of 1948.

The June index for foods was 204.6—more than twice as great as the 1935-1939 average. From mid-June food prices went up in all of the 56 cities surveyed. In 43 of the 56 cities or more were reported in Philadelphia, Boston, Baltimore, Cleveland, and Buffalo. The smallest rises, .05 or less, were in Los Angeles, San Francisco, and Jackson, Miss.

Equipment of Vermilyen-Brown Co., Inc., of New York, the contractors, is being moved to the site. Before the actual start of the work, the ground will be cleared.

Contract for Raising

The new five-year labor contract between General Motors and the C.I.O. Auto Workers provides for wage changes every three months—but the next change is not due until the July 14 index is ready. The workers are dead sure of some raise at that time.

In the month before June 15 the meat-poultry-fish group rose 3 per cent in average retail prices. Meat prices have been acting up during the Korean crisis, too.

In Chicago, the American Meat Institute spoke a reassuring word. It said that although "panicky buying" had caused some meat prices to go up, the pressure has eased and "the present price trend is downward."

The B. L. S. yesterday reported that wholesale meat prices rose 1.5 per cent during the week ending last Tuesday, July 18, and on that date were 11.7 per cent higher than they were on June 20—a month ago.

Average wholesale prices of all items went up .6 per cent during the same week. In the week before that—ending July 11—they had risen 1.8 per cent.

Wholesale prices are usually reflected a little later in retail prices.

Buying Increases

Buying of all kinds of things (Continued on Page 10, Col. 7)

## Two Youths Held After Stolen Car Runs Into Fence

Sheldon Sparling, 18, and Companion Turned Over to Troopers From Catskill

Apprehended about 20 minutes after he had allegedly struck a fence at 122 St. James street and later caused damage to a parked car on Washington avenue near North Front street, Sheldon Sparling, 18, of 165 Ulster avenue, Saugerties, was turned over to Trooper Knight of the Catskill State Police Friday night charged with grand larceny, first degree.

Sparling was arrested by Officers Francis Fagan and Kenneth Stratton at Albany avenue near Frontal avenue at 10:45 p. m. following his escape with a stolen car owned by William Lasher of Tannersville, bearing the license plate 1G-20-08, New York, police said.

The officers also arrested Sparling's companion, a 15-year-old youth, who was held on a juvenile delinquency charge. The latter was turned over to the Catskill State Police.

According to the local police report, Sparling and his companion leaped from their allegedly stolen car about 10:25 p. m. after it had struck a fence on the property of Herman Schafer at 122 St. James street.

Donald Kemper, of 168 Down street, who was at the scene at the time, told police he saw two youngsters climb out of the car and that he managed to detain one. However, Kemper said, the boy struggled free and pulled away.

Kemper, who identified the youths as between 14 and 15 years old and wearing dungarees and sport shirts, was called to headquarters after the two were apprehended and identified them.

Police also linked a damaged car to the youngsters' wild ride through the city.

Frank Gualtieri, of 235 Has (Continued on Page 10, Col. 7)

Carry Out Big Purge

Berlin, July 22 (AP)—The Communists in Romania have purged one-fifth of the party membership in the past 18 months, the Soviet-licensed A. D. N. news agency said today. In a dispatch from Bucharest, the semi-official agency said 132,000 Romanian Communists were expelled "for corruption, opportunism and a harmful attitude."

Washington, July 22 (AP)—Republicans are loading up for at least one more shot in the fiery row over the Communist-in-government charges of Senator McCarthy (R-Wis.).

Yesterday, Senators Jenner (R-Ind.) and Ives (R-N.Y.) resumed the angry debate over the issue, choosing as their target the chairman of the inquiry group, Senator Tydings (D-Md.).

## Where Americans Gain First Ground Victory

American Negro troops in action on the central South Korean front (a) captured Yechon (underlined), July 21, in the first sizeable U. S. ground victory in the Korean War. Red pressure in that area has been a flanking drive (broken arrow) against Kumchon, American defense zone rail center. Other broken arrows indicate Communist flanking threats to American defense lines southeast of Taejon (b). On the east coast activities of the U. S. First Cavalry Division have not been reported since they started inland after landing at Pohang earlier this week.

## Republicans to Keep Up Drive Against Reds in Government

Washington, July 22 (AP)—Republicans are loading up for at least one more shot in the fiery row over the Communist-in-government charges of Senator McCarthy (R-Wis.).

For two days the Senate has been caught up in a furious controversy over a Democratic report branding McCarthy's charges as a fraud and a hoax.

While it looked as though the wranglings were generally petering out, Senator Ferguson (R-Mich.) said he will speak on the subject Monday, adding that he had dug up some material that he was unwilling to disclose in advance.

The report in question, written by the three Democrats on a Sen-

## HIGH FALLS

High Falls, June 21.—St. John's Episcopal Church—Regular morning worship service at 10 and Sunday school at 9:15.

Reformed Church, the Rev. Geritt Timmer, minister—Regular worship service at 9:45 a. m., with a sermon entitled "The Mind of Christ." Sunday school will meet at 9.

Corporal Fred Moore, now stationed at Hawaii, telephoned his wife this week that he expects soon to ship for Korea. Corporal Moore has previously seen service in Korea.

Mrs. Beattie K. Eastman spent Sunday in Livingston Manor and then went to Staatsburg to spend some time with her son and family, Roger Eastman.

Miss Inge Koenig has returned home after spending a week in New Jersey with her cousin, Miss Doris Peperle.

Mr. and Mrs. E. A. Everhart of Charles City, Ia., returned home the first of the week after spending some time with their daughter and family, Mr. and Mrs. Martin Rusak.

Mrs. Myron Meyers who is employed at Rock City, was called to Saratoga Springs, N. Y., because of the illness of her mother.

Mrs. Reuben Barrett is in the Benedictine Hospital.

Mr. and Mrs. Chester Secor entertained their nephew and family from New York over the week-end.

Mr. and Mrs. Charles LaPolt and children, Charlie, Bob and Janice Lynn of Wawarsing, spent the week-end with Mrs. LaPolt's parents, Mr. and Mrs. Harold Van Kleeck.

Miss Marguerite Quick is reported improved following her recent illness.

Mr. and Mrs. Gerald Sutton and daughter, Linda of New Britain, Conn., called on Mr. and Mrs. Tracy Sutton this week. Mr. and Mrs. Sutton are on a two weeks vacation with relatives in Ulster county.

Mr. and Mrs. James Tully of Brooklyn returned the first of the week from a trip to Europe and are now at their summer home here.

Wallace Fullard is enjoying a weeks vacation.

Mr. and Mrs. Philip Backman and sons, who are enjoying their vacation in Ulster county. On Tuesday, they called on Mr. and Mrs. Tracy Sutton.

Miss Katherine Krom spent a few days last week with Mr. and Mrs. Irving Barnes in New Paltz.

The High Falls women are planning their annual carnival for August 3, 4, 5 and 12.

Mrs. Roy Ransom underwent an operation in the Benedictine Hospital Friday morning.

## Highway Contract

Albany, N. Y., July 22 (AP)—A \$4,987,464 contract was awarded today for construction of another section of the Major Duggan Expressway in the Bronx. The 0.36-mile extension will be built by Johnson, Drake & Piper, Inc., of New York City. The State Public Works Department said. The Expressway will be extended from a point near the Bronx Terminal Market, northerly across the New York Central Railroad to the approach to the Macombs Dam bridge.

## Chateau for Columbia

New York, July 22 (AP)—A 100-room French chateau at Tuxedo, N. Y., has been offered as a gift to Columbia University by W. Averell Harriman, special assistant to President Truman. The house, constructed in the style of the French Renaissance, was built in 1906 by the late E. L. Harriman, father of the diplomat. The offer was made several months ago.

## NEW PALTZ NEWS

New Paltz, July 21.—Beverly and Gene Osborne are vacationing in South Coventry, Conn.

Mr. and Mrs. Louis DeSalvo of the Bronx have been visiting Mr. and Mrs. Oliver T. Byrne in the Ardona section.

Ralph Clearwater and George McCabe are playground directors in Newburgh.

Mrs. Carmela Mortano has been entertaining guests from New York.

Mrs. Arthur Pritchett entertained at a party Tuesday night.

Mrs. John O'Brien entertained her sister and brother-in-law of Poughkeepsie Sunday.

Mrs. Don Rutigliano was a visitor in New York last week.

Mr. and Mrs. Fred Coulter had dinner in Kingston Monday night.

The Daniel Kelley family spent Sunday at Hedden's Beach.

Janice Pritchett is visiting her grandparents, Mr. and Mrs. Arthur Pritchett at Long Island City.

Mr. and Mrs. C. Brod of Allard's Corners and Mrs. Gertrude Kamp of Walker Valley were recent guests of Mrs. A. Rimple and Miss Marie Unbekannt.

New Paltz, July 20.—Mr. and Mrs. Irving Schoonmaker spent the week-end at the Dolly Madison Inn, Madison Beach, Conn.

Mrs. Ann Gardner who teaches the fifth and sixth grades at the Stanford School in Stanfordville is taking a summer course at the local college.

Mrs. Herman E. DuBois and mother, Mrs. Emma Hoyt are spending a few days with the former's daughter, Mrs. Ralph Aumick and family, Pine Bush.

While they helped celebrate the birthdays of Mr. Aumick and son, Billy.

Mrs. James Deimbroski and Miss Alice Brown of Tivoli are attending summer school at the college.

Mrs. Harriet G. Dayton spent the week-end with Dr. and Mrs. Paul Meyer in Schenectady.

Leonard DuBois and his father, G. Wurtz DuBois of Burlington, Vt., former New Paltz residents, have been spending a few days in town. They were dinner guests of Mr. and Mrs. Henry DuBois and family Sunday night.

Miss Jean McLaughlin of the Bronx who is spending the summer with her aunt, Mrs. Rosella Coulter celebrated her 12th birthday July 10 with a party. Her guests were Sharon Decker, Lorraine and Marilyn Ellis, Mary DuBois, Joan Kopper, Sharon Lynch, Sharon and Judy Van Gonsic, Marie McLaughlin, Connie and Ronnie Coulter.

The Flyers and the Printers' Devils bowling teams held a no-host picnic on the Minnewaska Trail Thursday.

Jackie Kelly celebrated his first birthday July 8. She is the daughter of Mr. and Mrs. Robert Kelly of the Millrock road.

Miss Sally Lane has been attending Camp Wendy at Wallkill.

Mrs. William Palmateer, Jr. and Mr. and Mrs. John Alcierto and daughter visited the Catskill Game Farm Friday.

Miss Anna Pontuervo of New York was a recent guest of Mr. and Mrs. Frank Sabarese.

John LeFevre returned with his father, Congressman Jay LeFevre to Washington, D. C. for a visit.

Harvey Clearwater has returned to summer school at Albany State Teachers College.

Mr. and Mrs. Nat Lovelace of New York are visiting Mr. Lovelace's parents.

Mrs. Melvin Carroll visited her sister, Mrs. J. Nardone Thursday.

Mrs. Nardone is seriously ill at St. Francis Hospital, Poughkeepsie.

## Attractive Ranch House

## Designed for Comfort

Seven Bedrooms ..... Three Closets ..... Six Cubbies

House ..... 20,500 Garage ..... 3,500

Dimensions House ..... 56' x 28' Garage ..... 19' x 19'

A combination ranch type, the house is 56' long and has a projection in the front part of the living room. The projection gives this part of the living room the appearance of a sun room for it receives an abundance of sunshine. The porch provides a shelter in which to sit in the summer. If preferred, it could easily be glassed in to serve as another sun room during the winter months. A few plants growing here would add a cheerful note.

The gabled roof breaks the length of the house and makes it appear smaller than it actually is. The vertical lines provide architectural interest and contrast with horizontal lines of the clapboards. A decorative touch is added to the entire house by the scalloped edges of the vertical boards joined with the eyebrow window.

A large living room with a fireplace and built-in bookshelves and a picture window, a dining room with two built-in china closets; three bedrooms provided with large closets; a kitchen and breakfast nook, complete with a handy L-shaped counter, and a laundry make up the rooms in this lovely home.

The entire second floor is a huge storage attic with access gained through the center back bedroom.

At least a 70' lot would be required for "The Wellsville" which has overall dimensions of 56' x 28' for the house and a cubic footage of 20,500. The garage, which is attached to the house, has a cubic footage of 3,500.

Both the front and side doors are located conveniently near the driveway.

**Living Room**  
Upon entering the house you find yourself right in the living room. Light is provided by

the French door, the window directly opposite, and the picture window which is flanked by case windows in the front wall. There is a handy coat closet located in the inside wall opposite the dining room.

At the other end of the 16' x 13'4" living room is a fireplace with built-in bookshelves on the left. The doorway, also located at this end of the room, opens on the hallway serving the three bedrooms and the bathroom.

Off the living room, through an archway at the left, is the dining room which measures 11'8" x 9'. A window, overlooking the porch, is flanked by built-in china closets in each corner. Another window, overlooking the driveway, also helps make the room bright. Two doors are placed in the back wall: one leads to the kitchen and the other to the back bedroom.

Measuring 12'6" x 11' the front bedroom has a huge closet on the left inside wall. Sufficient light and cross ventilation are provided by the two windows in the room.

The back bedroom is 11'4" x 11'6" and should also contain two windows and a good sized closet. Homemakers will be pleased by the large amount of wall space found in both these rooms.

**Versatile Room**  
Located in the back of the house, the bathroom is convenient to all bedrooms. The back bedroom, measuring 12' x 9'6", is a versatile room that could easily be converted into a den or hobby room if a third bedroom isn't needed. Double windows are located on the back wall with the closet placed on the inside wall, back to the bookshelves in the living room. Stairs to the storage attic lead up from the back left wall of the room.

Although the house plans show no door leading from this bedroom into the kitchen the owner could have one open near the broom closet at the top of the collar stairs.

Completely modern, the kitchen is well lighted by a glass door, a window in the front wall over the sink, which is located in the center of the L-shaped counter space. The stove should be placed at one end of the counter with the door to the laundry

at the opposite end. Cupboards are located both over and under the work counter.

With the refrigerator placed against the opposite wall the housewife won't have to waste any unnecessary steps in this conveniently laid-out kitchen measuring 11'4" x 9'6". Located by the front window, the breakfast nook is next to the outside door and near the door to the dining room.

There are two doors and a window in the laundry. One of the doors connects with the garage while the other leads to the house proper. If a laundry isn't required, this area could be made into a playroom for the youngsters. That door from the garage to the laundry provides a handy shortcut when you're carrying parcels from the car into the house.

The heating system should be placed in the cellar under the living room.

Plans Available  
Complete plans and specifications for "The Wellsville" and other houses in this series are available at moderate cost. To ascertain the exact price of these documents, write to the Home Building Editor, Dept. 24, Kingston Daily Freeman, Kingston, N. Y., and enclose a self-addressed envelope bearing a three-cent stamp. At least one week should be allowed for a reply.

**Roof of Porch Can Be Made Sun Deck**  
It is a simple matter to convert the roof of a porch into a second-floor sun deck, and the improvement would be one that the entire family could enjoy.

A railing around the outer edge of the roof would be necessary. A wooden balustrade would be sufficient, but for a larger and more expensive home a wrought-iron railing may be desirable.

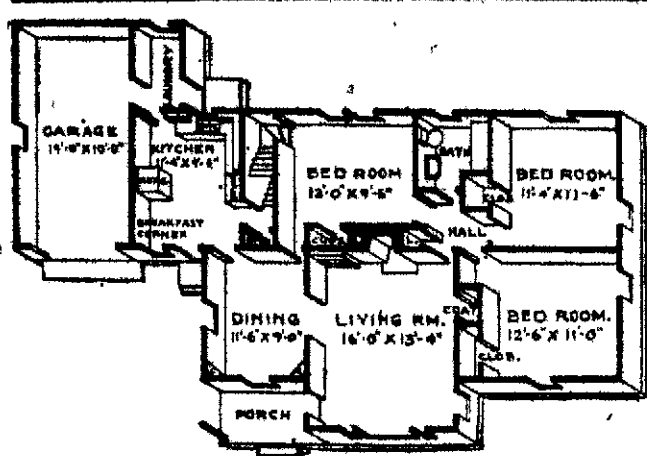

Besides what structural changes may be necessary in the roof itself, all that would remain to be done would be installation of some suitable floor covering and provision of an entrance to the sun deck from the house.

**New Lavatory Uses Idle Corner Space**  
A new corner lavatory, 18 inches on the wall sides, has just been introduced which will prove ideal for rooms where space is at a premium. The corner lavatory takes full advantage of corner space that might otherwise be wasted, yet gives the user complete freedom of arm movement, says the Plumbing and Heating Industries Bureau.

The basin itself, 16 by 11 inches, is as roomy as the basins on conventional mid-wall lavatories. The controls use the water's own pressure to help shut off water flow and prevent any dripping at the faucet.

**Orange and Yellow Warm**  
Variations of yellow and orange can be used successfully in any room in the house. Care should be taken, however, that they are not used in too great strength, for they are considered to be warm colors.

## THE WELLSVILLE

Attractive Ranch House  
Designed for Comfort

**Orange and Yellow Warm**  
Variations of yellow and orange can be used successfully in any room in the house. Care should be taken, however, that they are not used in too great strength, for they are considered to be warm colors.

## Floor of Utility Room Important

New York—It used to be that utility rooms in any house were to be "used and not seen." That idea is outmoded today, for the modern home must have workrooms with eye appeal as well as usefulness. Postwar home owners are discovering that the floor is often the most important factor in providing both.

Utility area floors get more rough usage than any other part of the house. They should be durable, easily cleaned, and resistant to moisture, fire and stain.

Since rugs and carpets are seldom used in kitchens, laundries, playrooms and all-purpose utility rooms, the flooring itself in those rooms is an important factor in their overall appearance. A bright, clean-looking floor can provide a cheerful atmosphere in work areas even when they're tucked in a dark cellar corner.

Floor covers can make a room seem smaller or larger than it is, according to color experts. A cubby-hole kitchen will look more spacious if the floor and wall colors are bright and in harmony. The same effect can be obtained in entrance halls, laundries and utility rooms, especially if highly reflective wall and floor coverings are employed. Dark colors, sharp contrasts between walls and floors and non-reflecting surfaces will make the room seem smaller.

Floors with bold, parallel lines will tend to make a room seem longer. Lines across the floor will make the room seem wider. Borders around the floor will make it seem smaller.

**Wall Area Increased**  
Much additional wall space for arrangement of furniture can be obtained by recessing radiators into the wall, and it is usually advisable to do this when the wall is weathered and the heat can be turned off. The radiator need not be placed under a window, as tables, low desks, or chairs may be placed in front of radiator grills without interfering with the heating of the room.

**Roof of Porch Can Be Made Sun Deck**  
It is a simple matter to convert the roof of a porch into a second-floor sun deck, and the improvement would be one that the entire family could enjoy.

A railing around the outer edge of the roof would be necessary. A wooden balustrade would be sufficient, but for a larger and more expensive home a wrought-iron railing may be desirable.

Besides what structural changes may be necessary in the roof itself, all that would remain to be done would be installation of some suitable floor covering and provision of an entrance to the sun deck from the house.

**New Lavatory Uses Idle Corner Space**  
A new corner lavatory, 18 inches on the wall sides, has just been introduced which will prove ideal for rooms where space is at a premium. The corner lavatory takes full advantage of corner space that might otherwise be wasted, yet gives the user complete freedom of arm movement, says the Plumbing and Heating Industries Bureau.

The basin itself, 16 by 11 inches, is as roomy as the basins on conventional mid-wall lavatories. The controls use the water's own pressure to help shut off water flow and prevent any dripping at the faucet.

**Orange and Yellow Warm**

## Furniture Combinations

Smart decorators now are combining furniture that is lacquered black or finished dark as teakwood with pieces that are light as honey. Consequently, you need no longer worry about having a whole room finished in mahogany or walnut or pine. Blonds and brunettes, furniture — together — go successfully — especially when walls are finished in clear, sunny colors.

## Carolyn Bailey Weds Gus Cunaveles in St. Peter's Ceremony

Miss Carolyn Bailey, daughter of Mr. and Mrs. Franklin Bailey of 236 Elmendorf street, became the bride of Gus Cunaveles, son of Mrs. Peter Cunaveles of 126 Emerson street, Saturday, July 15, at St. Peter's Church. The double ring ceremony was performed by the Rev. Henry E. Herdgen.

The bride wore a pink organza gown over tulle with white accessories and a corsage of white roses.

Nicholas Nekos was the best man.

Following a reception for 25 guests at the home of the bride's parents, the couple left for a wedding trip through Pennsylvania, New Jersey and New York city.

For traveling she chose a yellow organza dress with white accessories. She wore a corsage of white roses. They will make their future home at 124 West Chestnut street.

Mrs. Cunaveles was graduated from St. Peter's Parochial School, Kingston High School and Spencer's Business School. She is employed by the New York Telephone Co.

Must Restore Train

New York, July 22 (AP)—The Public Service Commission today ordered the Erie Railroad Company to put back into service train No. 61 between Suffern and Port Jervis. The company had discontinued it as a coal conservation measure during the miners' strike last year. Under the commission's order, made on the recommendation of Hearing Examiner Harold M. Olmsted, the operation of the train must be resumed not later than Sept. 11 of this year.

## USE EVAPORATED MILK IN DESSERTS

EAT WELL

By GAYNOR MADDOX

N.E.A. Staff Writer

Here are three good desserts easy to make, economical and agreeable to the summertime appetites and evaporated milk and other member of the plentiful dairy foods family, to add extra nutrition in your recipes.

Strawberry Bavarian

(Serves 4-6)

One tablespoon gelatin, 2 tablespoons cold water, 1 cup strawberries, fresh or frozen, 1 cup evaporated milk, whipped, 1/2 cup confectioner's sugar, lady fingers.

Apricot Charlotte

(Serves 6-8)

Two tablespoons plain gelatin, 1/2 cup apricot juice, 1/2 cup hot water, 1/2 cup sugar, 1/2 cup lemon juice, 1 cup pureed canned or stewed apricots, 1 cup evaporated milk, 1 tablespoon lemon juice.

Pour evaporated milk into freezing tray of the refrigerator and chill until ice crystals form around

edges. Soften gelatin in apricot juice for 3 minutes, add hot water and stir until gelatin is dissolved. Add sugar, 1/2 cup lemon juice and pureed apricots. Chill until beginning to thicken.

Scrape chilled evaporated milk into chilled bowl and beat with egg beater until thick and add 1 tablespoon lemon juice and continue whipping until very stiff. Fold in chilled gelatin mixture and place in individual glass custard cups. Garnish with lady fingers and apricot halves.

SUNDAY'S MENU

BREAKFAST Sliced bananas

and blueberries, cornflakes, bacon

roll, coffee milk

DINNER Fried chicken, mashed

potatoes, peas and sautéed mushrooms, corn on cob, enriched rolls,

raw carrot sticks and radishes,

apricot Charlotte, iced coffee milk.

SUPPER Cold cuts, shredded

cabbage, pineapple and lettuce

salad, sour cream dressing,

relishes, hot biscuits, macaroons,

ice tea, milk

Professor Still on Job

Despite Oath Refusal

San Francisco, July 22 (AP)—

Forty high-ranking professors at the

University of California have their

jobs today despite their refusal to

sign contracts disavowing communism.

But their opponents promise a

new fight to unseat them.

The decision to keep 39 of the

professors was made in a 10-9

vote of the University Board of

Regents with Governor Earl Warren

casting the deciding vote.

The 40th man was approved

later when University President

Robert Gordon Sproul was advised

until another overlooked professor

awaited action.

Warren has argued consistently

that compulsory oaths are not the

way to fight communism. Voting

with Warren was Adm. Chester

W. Nimitz, World War II com-  
mander of the Pacific fleet.

The balloting climaxed a heated

three-hour discussion with opposi-  
tion to the professors led byJohn Francis Neylan, San Fran-  
cisco attorney. Neylan promisedthe Regents he would bring up  
the matter again at the next

meeting.

## JACOBY ON BRIDGE

Greedy Bid Saved By Brilliant Play

By OSWALD JACOBY

Written for N.E.A. Service

If I were a strict moralist, I would not be talking about this hand South was greedy, and he should have been punished. The truth of the matter, however, is that he got away with his greediness.

The first two rounds of bidding were quite good. However, it was very wrong of South to jump to four spades. He knew that he could contribute six tricks towards a no-trump contract. It should have been clear that the three no-trumps was likely to be a far easier contract than four spades.

As we have observed, however, South was greedy. He wanted to collect not only the game and rubber but also the 150 honors in spades. He very nearly lost all save honors.

West opened the seven of hearts, dummy played the jack, and East won with the queen. East quickly cashed the ace of hearts and returned the suit, allowing West to ruff. West returned the jack of diamonds to South's ace, and now declarer had his work cut out for him.

South drew three rounds of trumps, discarding a low club from dummy on the third trump, cashing the ace and king of that suit and ruffing a third round. He had hoped for a 3-3 break of the clubs, in order to find a parking place for his nine of hearts. When the clubs failed to break, South led his last trump.

At this point, South had a trump, a heart, and a diamond. West had to come down to two cards, and had to save a club to prevent dummy's six of clubs from becoming established. He therefore saved only one diamond.

Dummy could then afford to discard the last club, saving only the king and three of diamonds. It was now East's turn to discard. He held the ten of hearts, and two diamonds. If he discarded the ten of hearts, South's nine of hearts would become good. East therefore also discarded a diamond.

At this point South could lead his low diamond to dummy's king, dropping all of the remaining diamonds. Dummy's three of diamonds took the last trick.

Perhaps there really is a moral in this tale. Don't bid greedily unless you can play hands as well as South played this one!

## BARBS

A woman with her hair done up in paps couldn't possibly look as terrible as she thinks she does.

A cow in Kansas devoured a roll of ten-dollar bills hidden in a hay stack. Now for some nice, rich milk!

It's okay to work eight hours and sleep eight hours—but don't pick the same eight.

Summer makes you want to be somewhere else even after you get there.

Have you noticed that men who can't grow mustaches usually are the ones who want them?

best wishes to  
Mike Perry and  
Mickey Tiano

for the success of  
their new restaurant—

## YOUNG FOLKS COLUMN

Katherine Szymanski, aged 11, of 344 South Wall street, a pupil at the Immaculate Conception School has submitted the winning article on the third week's contest on local topics, which are of interest to the young people of the city.

Katherine's winning letter on "Kingston Recreation Parks" is as follows:

Editor, The Freeman

Of all the recreation parks in the City of Kingston, I like Hasbrouck Park the best.

I choose this park not only because of the play facilities but because of the beautiful scenery you enjoy as you walk through the paths in the woods partly sur-

rounding the park. In some places you have a wonderful view of the Hudson river, Rondout creek and towns across the river. While looking out over the river you also see the light-house, ferry boat and other boats gliding across the river. Then we turn our eyes to the beautiful wild flowers and trees and the picnic benches scattered around the park.

I think that Kingston is keeping the playgrounds in wonderful condition for us children.

Respectfully submitted  
KATHERINE SZYMANSKI  
"Safety on Our Streets" is the current topic suggested for the young folks to give expression to in their letters.

## Do You Remember

by SOPHIE MILLER

In this column of July 7th, I gave full credit as architect to Myron S. Teller for the rebuilding of the City Hall after the fire and received a note immediately from Mr. Teller saying that Gerard W. Betz and George E. Lowe were associated with him in this work.

What is the oldest Kingston paper you have ever seen? I have the "People's Advocate" Vol. I, No. 20, of Kingston, N. Y. dated Wednesday, February 23, 1825 loaned to me by Myron Teller.

This 125-year-old paper is well preserved. Perhaps this was published by Samuel S. Freer, who was the famous publisher of the "Ulster County Gazette" of 1800. Under "Terms" of the "People's Advocate" it says, "will be published every Wednesday, by S. S. Freer, at two dollars per annum, payable half yearly." This paper is certainly a museum item. There are pictures with most of the ads.

Here's one for the books. "One cent reward" Runaway from the subscriber, on the 22nd of November last, John DeWitt Marvin, an indentured apprentice boy, to the shoemaker's business, and about 15 years of age. All persons are hereby forbidden to harbor or employ him, or they will be dealt with as the law directs. The above reward will be given for his apprehension but no charges will be paid Edmund Masten, Kingston, December 8, 1824.

Also an item which might appear today. "Dr. H. Van Hoevenberg, respectfully informs his friends and the public that he has taken an office newly opposite the Court House, in the building occupied by Myer & Van Buren, Kingston, Oct. 21, 1821."

Under Notice: "An application will be made to the present, or to the Legislature in session in 1825, for an act to incorporate a company for the purpose of erecting a Toll Bridge across the Strand Creek, somewhere between Liddy's Factory and the Hudson River.

where it will not interfere with the conveniences of the present ferry. Alfred S. Fell, Esq., November 1, 1824." That's what they did in those days when they wanted a bridge. But where's Strand Creek?

Under Dissolution "The law-partnership of Myer and Van Buren is vacated. The books and accounts of the firm are with Mr. Van Buren opposite the Court House, January 31st, 1825.

Mr. Van Buren continues his office opposite the Court House, Kingston, Feb. 2nd 1825.

Abm. Myer has opened an office on North Front street, nearly opposite to his house, Jan. 31, 1825.

"Wood! Wood!"—Such of the subscribers to the "People's Advocate," who calculate to bring wood to the office are requested to furnish us with this article immediately Jan. 5, 1825. Barter system must have been a heavy thing in those days. You could get rid of the things you didn't need for the things you needed.

"Book-store, stationary and bindery, George Pattin, has just received from New York, an additional stock of books and stationery. He also keeps a supply of blank books of every description. He also offers for sale a general assortment of fresh teas and groceries of the first quality. N.B.—Cash paid for clean cotton and linen rags October 13, 1824."

Woman in the Zoo

Chicago (AP)—Mrs. Mary Boleyn, 33, got a late start in a new career, but she is moving pretty fast. She went to work at the Brookfield zoo last year behind a refreshment stand. This year she has charge of 40 small animals. She is the only woman keeper at the zoo and, so far as her bosses know, the only one in any zoo in the U. S.

**Fair Warning**  
This should be a lesson to bell boys: At a local hotel a few days ago, a bell boy had helped a guest with his baggage into a car. Just as the departing guest was extending his hand with a coin for a tip, the bell boy fainted and fell on the sidewalk. This is a true story.

**Judge**—What brought you here?  
**Defendant**—Two policemen.  
**Judge**—Drunk?  
**Defendant**—Yeah. Both of them.

**Mother**—Did you mail my letter for me, Johnny?  
**Johnny**—Yes, Mother, and here's your three cents back.

**Mother**—How in the world did you mail a letter without a stamp?  
**Johnny**—Oh, it was easy. I just slipped it in the box when no one was looking.

Paying no attention to any stop signs has been the cause of many accidents. Some people never notice any kind of signs unless it is a policeman's club.

**Aunt**—Can you explain radio to me, Arthur?  
**Arthur**—Well, if you had a very long dog, reaching from New York to Chicago, and you trod on its tail in New York, it would bark in Chicago. That's telegraphy; and radio is precisely the same only without the dog.

**Joe**—Thankful! What have I to be thankful for? I can't pay my bills.  
**Moe**—Then, man alive, be thankful you aren't one of the creditors.

**Muggins**—Yes, I'm living out in the country now. It certainly has its inconveniences.

**Buggins**—What do you miss most?  
**Muggins**—The last train home at night.

When a crowd of people gathered to watch a fire, a policeman kept moving them on. One man refused to go.

**Man**—Why should I move along? You're letting that fellow over there stay.

**Policeman**—Well, he's entitled to. It's his fire.

The world's work is done by men who never listen when someone says a thing cannot be done.

**Mugs**—I was sorry for your

**THEY'LL DO IT EVERY TIME** (Registered U. S. Patent Office) By Jimmy Hatlo

wife in church this morning when she had a terrific attack of coughing and every one turned to look at her.

**Bugs**—You needn't worry about that. She was wearing a new spring hat.

**Jane**—Mother, I must have some money for a new dress. Will you ask daddy for it?

**Mother**—Ask him yourself, dear. You are getting married in a month's time and you must have some practice.

**George's mother** disliked her son's use of slang, so she set about trying to effect a cure. At the tea-table he wanted the milk and said to his sister:

**George**—Mary, chase the cow this way, please.

**Mother**—Mary, take the cow to where the calf is bawling.

**Tourist**—And you mean to tell me that in your section of California you have 365 days of sunshine a year?

**Californian**—Exactly so, sir, and that's a mighty conservative estimate, too.

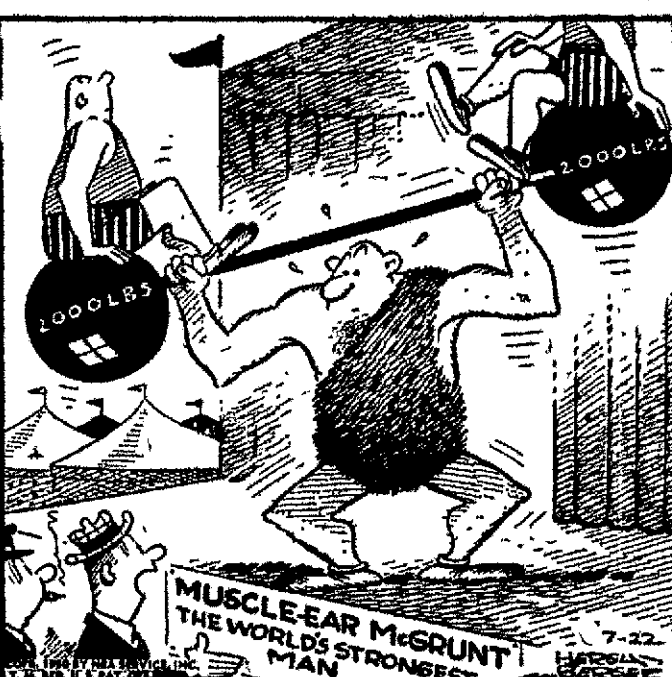

**Red Skelton**—I saw you talking to a young girl in a bus stop.

**Ryon**—Why, I only asked her the time.

**Red Skelton**—You must be awfully absentminded. I saw you writing it down.

# Colonials Launch Independent Schedule Against New York Firemen

## McCormick and Tomson Team Up For 4-0 Shutout in Two Loop

### Old Caps Take Over Third Position

All the business in the City Baseball League was transacted in the first inning yesterday, when Old Capital Motors scored 4 times off Bob Rybinaker to win a 4-0 decision over the Colonial Merchants.

McCormick, the New Paltz fireball artist, and Hokie Tomson, laborer for the nod over Rybinaker in one of the fastest played two-league games in recent years—one hour, 20 minutes.

After the Old Caps counted four times in the opener, Rybinaker settled down to match McCormick and Tomson, pitch for pitch, in the second, unimpaired and the stretch.

McCormick pitched one-hit ball in four innings, while fanning six. Tomson gave up three hits in three, walked two and fanned 2. The Caps collected seven hits off Rybinaker—four in the first frame—who walked four and fanned six. Only two Merchants advanced as far as second base, Provenzano on a steal in the first and Davis on a hit and error in the third.

In Third Place The victory was the Old Caps' seventh in ten starts and gave them sole possession of third place, a game behind the front-running Jones Dairy.

Felipe's triple to right launched the Caps' first inning assault on Rybinaker. Jackson walked, took second on a throw and Decker's fly to right scored Felipe. Barringer delivered Jackson with a single and Sleight sent him to third with another safety. Sleight's steal and a walk to Hopper loaded the sacks and Lucas promptly sent the third and fourth runs across with a single.

Hopper and Lucas each had two singles for the Caps. There were no extra base hits in the game. Decker came up with the fielding gem, racing behind third base for a great stop to steal a hit from Hennie Stoll.

Must Get Overtime Pay Within Six Days, Is Rule

Albany, N. Y., July 22 (AP)—Overtime pay, like base pay, must be delivered to an employee within six days after the week in which he earned it.

That's the opinion of State Attorney General Nathaniel L. Goldstein.

Railroads, however, are exempt. Goldstein ruled yesterday that in cases where workers are paid every two weeks, overtime wages could not be held back until the next regular payday.

A law department source indicated that overtime money earned during the first week of a two-week period must be paid with the employee's regular check. Overtime in the second week must be paid within six days after the regular payday, if not paid then.

The State Labor Department asked Goldstein's opinion.

Morgan Hanover First

Westbury, N. Y., July 22 (AP)—Morgan Hanover, driven by Ben Tunington, captured the featured Setauket free-for-all race by a nose at Roosevelt Raceway last night in 2:03 1/5. The fast closing Patchen Arrowby won second and Scott Blackstone third in the six horse field. The winner returned \$16, \$7.90 and \$2.40.

Forsyth.

Subway Grill won a pair of victories in the City Softball League this week to extend its league lead to 2 1/2 games over the runner-up Bences's Grill.

The Subway's rapped over the Hustlers, 9 to 1, and tripped Duke's Tavern, 10 to 5, for an overall record of 14 wins and two losses.

Joe Amato five-hit the Hustlers into submission and lost a shutout in the bottom of the seventh. The winners raked George Magley for 13 hits and had a four-run inning in the fourth. Johnny Schatzel rapped a pair of doubles and Ed Ashdown hit one. Amato racked up four strikeouts.

A six-run rally in the eighth inning broke a 4-4 tie against Duke's. The losers counted once in their half of the extra inning. Duke's scored twice in the bottom of the seventh to send the game into extra innings.

Ed Ashdown's homer led a 12-hit attack on Bob Dickerson. Joe Scholier was credited with triple and Dickerson and Jim Fitzpatrick each had doubles. Tom Spada, the winning hurler, permitted seven hits and fanned four.

Missing in Action

Washington, July 22 (AP)—A Korean war casualty list issued by the Defense Department yesterday reported Pfc. Raymond B. Mellin, brother of Kenneth C. Mellin, 11 Grandview avenue, Nanuet, N. Y., missing in action.

The Sarazzen Swing

Take Club Straight Back on Line

Or to Outside to Cure Shut-Face

Another of a series written for

NEA Service

By GENE SARAZEN

Winner of Them All

During the period I was floundering around without a groove, there were rounds in which I was involuntarily a shut-face hitter.

This term is often used by locker room discussions with only partial accuracy.

When the clubhouse is shut at the top of the backswing, it faces the sky. This results from breaking the wrists, then trying to compensate for the overflattness of the arc by cocking the wrists at the top of the swing.

The correction is arrived at by taking the club back on a straight line away from the target or a little outside that line. The wrists then cock themselves automatically.

I escaped the shut-face doldrums only when I rebuilt my game from the ground up.

Whenever I feel a shut-face coming on, I resort to a simple test. I hit three or four balls off the fairway with my driver. If I get all the balls well off the ground, the face of my club is not shut. It is the correct position.

Lawson Little, Olin Dutra and Willie Hunter were shut-face hitters, which demonstrates that style doesn't always mean erratic golf. But in the long run it does.

When Little, Dutra and Hunter were young men, the magnificent timing of youth enabled them to get away with a shut-face style.

In their 30s, however, the basic flaw could not be rectified. Under pressure they ran into serious

error.

Even Little, with his remarkable gifts, was unable to maintain his standing as a top-running golfer over a period of years.

BASIC FLAW—Even Lawson Little, above, with his remarkable gifts, was unable to maintain his standing as a top-running golfer over a period of years because of a shut-face style.

## The Weather

SATURDAY, JULY 22, 1950  
Sun rises at 4:26 a. m.; sun sets at 7:35 p. m., E.S.T.

**The Temperature**  
The lowest temperature recorded on The Freeman thermometer during the night was 54 degrees. The highest figure recorded up to noon today was 76 degrees.

**Weather Forecast**  
New York city and vicinity—Sunshine with seasonable temperatures and low humidity today. High 80 to 85, fair with no significant change in temperature tonight and Sunday. Low tonight in mid-60s in city and mid-50s in northern suburbs. High Sunday 80 to 85, gentle to moderate variable winds today, tonight and Sunday, mostly southerly in the afternoon.

**Record-Breaking Low Temperatures in State**  
Albany, N. Y., July 22 (AP)—Record-breaking low temperatures this morning chilled New Yorkers for the second straight day.

The mercury sank to 50 in Albany, one degree under the date record set in 1890. At Syracuse, a 50-degree reading was three degrees under the 35-year-old record for the date.

Oneonta reported an overnight low of 42, and it was 45 at Utica, Elmira and Binghamton.

The Weather Bureau blamed the chill on cold Canadian air hanging over the state. However, the forecasters said today would be sunny, dry and warm. Temperatures will not be quite so cool tonight. Tomorrow, they predicted, would be another sunny day, with the mercury climbing into the middle or upper 60s.

Overnight lows included Kingston, 54; Poughkeepsie, 48; Glens Falls and Massena, 50; Rochester, 55; and Buffalo, 58.

## Sickler Serious

Slutskin car, was treated for lacerations of the right elbow, knees and left shoulder and discharged from the Kingston Hospital.

State Police reported George Sickler, Jr., driver, had fallen asleep at the wheel as he drove south and his car crossed over to the left and the Sickler car and the Slutskin car collided on the north bound lane.

The injured were brought to the Kingston Hospital by the Conner ambulance service.

## Rock From Blast

Union street, Kingston, was the blast.

Said He Gave Warning  
Frank Pennas of 65 South Clove street, Kingston, suggested that Robert Cuddy of Cornwall were operating a crane which picked up debris from the blasts. Cuddy told Coroner Chipp he had shouted a blast was to be set off and he and Pennas took cover. Men on the adjoining buildings reported, Coroner Chipp said, that they had not heard the warning and continuing work. Suddenly they were showered by rock.

The rock which struck Cook weighed about 30 pounds and struck him on the left forehead, crushing his skull and inflicting lacerations of the brain.

An autopsy was performed by Dr. Gilbert Schaffner and Dr. Anthony Toole. The body was turned over to the Pine Funeral Home at New Paltz.

Corporal John Metzger and Trooper Divine of the Highland barracks investigated the accident. The investigation was still under way today by the B.C.I. unit.

## Sleeping Pill Pneumonia

Hempstead, N. Y., July 22 (AP)—An overdose of sleeping medicine, resulting in a form of pneumonia, was blamed for the death yesterday of Lois Mitchell, 27, of Summit, N. Y. Miss Mitchell, daughter of John Mitchell of (7 Watchung place) Summit, died at Meadowbrook Hospital where she was taken last Saturday by her escort, John Sedlack of Short Hills, N. J. Long Island Parkway police said she told them she had been taking sleeping pills, but said they did not know the reason. Dr. Theodore Murphy, Nassau county medical examiner and Miss Mitchell's attending physician, said the overdose led to hypostatic pneumonia. He said this was the usual form of death in such cases.

## Local Death Record

Funeral services for Mrs. Anna Thornstrom of 158 O'Neil street were held from the Jensen and Deegan Funeral Home, 13 Downs street, Thursday at 8 p. m. The Rev. Ernest L. Witte conducted the services, which were largely attended by numerous friends and relatives. The body was taken to Ferncliff Crematory at Hartsdale Friday.

## General Dean Listed As Missing in Action

Washington, July 22 (AP)—The army today officially listed Maj. Gen. William F. Dean, commander-in-chief of the 24th Division, as missing in action in Korea.

It also reported word indicating that the general had been wounded.

Confirmation that Dean is missing came in a message from Gen. Douglas MacArthur. The supreme Far East commander said that Dean's interpreter, who had been with him, indicated that Dean was wounded.

MacArthur expressed high hopes that the general will return with some group of separated personnel frequently returning to their units.

Dean personally led the vain American effort to hold the Korean city of Taejon. The last front line report on him recounted that he was seen passing ammunition to a bazooka team battling Red tanks at Taejon.

G.I. Families Threatened  
Spokane, July 22 (AP)—Notices of eviction or rent increases have been handed to wives and families of at least six Spokane air force base fliers who were ordered to the Pacific, Mayor Arthur Meehan says. The mayor said the complaints reached his office during the last few days and added: "If they continue to come in this rate I'll recommend that rent control be put back into effect." Spokane rents were decontrolled a year ago.

## Car Is Found

A 1940 convertible Buick coupe bearing New York license 5D-6985 was found wrecked and abandoned on the Millhook-Accord road. De Witt Barley of Accord reported to Sheriff Smith that the car had been there the day before. The front end of the car is badly damaged and the car stripped.

## Station Wagon Found

A Ford station wagon reported stolen from the trailer parking area just across the Washington avenue viaduct Friday morning has been located by state police near Spillway. The car, owned by Margaret Grant, was found with the front end damaged.

## Predicts Delay In Foreign Arms As U. S. Readies

Washington, July 22 (AP)—With Congress concentrating on U. S. strength, Senator Connally (D-Tex.) today predicted a delay in any presidential request for more funds to arm the anti-Communist nations.

Connally told reporters he doesn't expect any immediate appeal from the anti-Communist funds beyond the \$1,222,500,000 Congress has authorized for foreign military assistance.

"They'll have the billion to start on and that should take care of the problem for a while," the Texas senator said.

## Will Check

MacArthur's command is due to leave 1,000 A-24s, 2.1% of the estimated 145,000 in the U. S. army whose enlistments expire between now and June 1951.

Will Check Monday  
Congress also has been advised that by the same date the air force would have 88,000 enlistments expiring, the navy 62,000.

Meanwhile, Chairman Vinson (D-Ga.) announced that the House Armed Services Committee will begin an inquiry Monday into "how well prepared this country is."

The navy will be heard from first, with Adm. Forrest Sherman, chief of naval operations, as the opening witness.

Vinson has instructed the services to advise the committee on how many men they think will be needed, not only to halt the Communist invasion of South Korea, but to be ready for any outbreak elsewhere. He wants to know also how many ships the navy plans to take out of "mothballs."

The first move in that direction was taken yesterday with an order to re-activate 12 troop ships laid up on the Pacific coast—enough to carry at least 35,000 men, or two full army divisions.

In addition, 20 Victory ships were ordered into service from the 2,249 cargo vessels being kept in reserve.

As for manpower needs, the House Committee already has been advised tentatively that the army expects to build up to "just under" its present authorized ceiling of 837,000.

But the navy and air force will have "significant requirements" above their ceilings of 666,882 and 502,000, respectively, Defense Department spokesmen told the committee.

Report on Strength  
The Pentagon said that on June 30 the army had a strength of 581,700, the navy 380,600, marines 74,800, and air force 412,000. It also said that the army's strength would be the last strength figures to be released.

The army, acting on authority from President Truman, called up reserves and guardsmen just a day after the navy and marine corps had issued calls for 88,000 of their reserves to join the colors.

The army has not disclosed the number of guardsmen and reserves it is bringing into service. But it is pulling them up in units smaller than a division. The units involved will not be taken from any division.

## Negroes Routing

columns striking southwest of Taejon.

General MacArthur said one of these moved 16 miles from Kumje south to Chongju and the other advanced in a parallel line 20 miles from Chongju to Imshi.

The points of the southern arm, at Chongju and Imshi, are 50 and 60 miles southwest of Taejon.

Taejon Center  
The hinge of the pincer drive is Red held Taejon. The pressure there is greatest. U. S. troops gave up Taejon Friday after two days of heavy attack from overwhelming numbers of Red army, infantrymen and guerrillas. They withdrew a short distance to hills southeast.

The Americans made further withdrawals to better neutral defense Friday, General MacArthur said. He said the South Korean First Corps on the American right flank backed up in the same direction at the same time.

Associated Press Correspondent Lief Erickson said Communist forces were active Saturday over new American positions south of Taejon, but there was no penetration of the American and South Korean lines.

Erickson said there was a sharp lull across the Korean battlefield. He said strengthened American forces dug into a railway line east of fallen Taejon.

Weather Cuts Air Raids  
Thick clouds shrouded mountain ridges after a night long rain. American and Allied air operations were stopped by the weather, which was working on the side of the North Koreans. The Reds had a whole day for regrouping for their next assault down the rail and highway corridor toward Pusan.

American patrols were probing in front of U. S. lines to detect Red movements.

If the weather clears Sunday an effective air assault may slow the North Korean attack.

A navy communiqué announced the recapture of Yongdok but did not identify the U. S. troops in the action and made no mention of ground fighting. It did say that the navy had been in touch with the 25th Division artillery forces during the long battle.

An Eighth Army headquarters spokesman told Erickson that the troops who entered Yongdok had pushed a short distance northward of the town to favorable terrain.

## Dean Still Missing

There was still no word of the whereabouts of Maj. Gen. William F. Dean, commander of the 24th Division, who was last reported feeding ammunition to a bazooka team Friday in the fierce fighting at Taejon.

Nor was there word on activities of the First Cavalry Division since the infantry outfit landed at Pohank Wednesday in the first amphibious assault landing of the Korean war.

A Far East Air Forces communiqué said large scale bombing of Wonsan on the east coast of North Korea has "resulted in a slowdown" in shipment of Red military supplies to the fighting line.

The air forces made the statement in analyzing results of a mass attack on the port city July 19, in which 400 tons of bombs were dropped by 50 Superforts, using radar sights.

Pictures taken after the weather cleared showed the bombs hit more than 50 per cent of the warehouse and dock area, destroying 19 warehouses and damaging seven others.

Plans Completed For State Guard  
New York, July 22 (AP)—Brig. Gen. Hampton Anderson, acting chief of staff of the New York National Guard, said today plans had been completed for rapid organization of a State Guard to replace National Guardsmen activated into federal service.

Implementation of the plan, he said, awaits action by federal and state authorities.

Anderson said that organization of a State Guard force generally would follow the pattern of the present National Guard as to strength and locations. Its personnel, he said, probably would be composed largely of limited service men who are not qualified for general service in the armed forces.

Anderson said he had not yet received instructions from Washington concerning mobilization of specific non-divisional units of the New York National Guard. He added that he expected such instructions early next week.

## Westchester to Curb 'Hot Rod' Automobiles

New Rochelle, N. Y., July 22 (AP)—Officials of this Westchester county city started a campaign today to curb "hot rod" automobiles—makeshift cars that youngsters have been driving at high speeds.

The campaign stems from the death last Friday of William J. White, 18, son of a vice-president of the S. S. Seaboard Corporation in New York City. Police said the speedometer of his wrecked auto was jammed at 90 miles an hour.

## Plans Completed For State Guard

New York, July 22 (AP)—Brig. Gen. Hampton Anderson, acting chief of staff of the New York National Guard, said today plans had been completed for rapid organization of a State Guard to replace National Guardsmen activated into federal service.

Implementation of the plan, he said, awaits action by federal and state authorities.

Anderson said that organization of a State Guard force generally would follow the pattern of the present National Guard as to strength and locations. Its personnel, he said, probably would be composed largely of limited service men who are not qualified for general service in the armed forces.

Anderson said he had not yet received instructions from Washington concerning mobilization of specific non-divisional units of the New York National Guard. He added that he expected such instructions early next week.

## Westchester to Curb 'Hot Rod' Automobiles

New Rochelle, N. Y., July 22 (AP)—Officials of this Westchester county city started a campaign today to curb "hot rod" automobiles—makeshift cars that youngsters have been driving at high speeds.

The campaign stems from the death last Friday of William J. White, 18, son of a vice-president of the S. S. Seaboard Corporation in New York City. Police said the speedometer of his wrecked auto was jammed at 90 miles an hour.

"These boys have been going crazy in their driving," said Acting City Judge Sol Rubin. "I shall stop it even if I have to revoke licenses and impose jail sentences."

A riding academy proprietor, Robert Koehler, was charged with violating a zoning ordinance after police reported they found eight "Hot Rods" stored in a barn on his property.

Other police action was threatened against several tavern and ice cream parlor operators on whose premises teen-agers have been meeting before high speed drives on the highways.

## Critically Wounded By An Unknown Gunman

New York, July 22 (AP)—A 16-year-old Bronx boy, Manuel De Jesus, was shot through the chest and critically wounded by an unknown gunman as he walked on Lexington avenue near 114th street early today.

Foe said De Jesus told them he had passed a quarrelling group of youths a moment before. He was some distance beyond them when he heard a shot, felt a stinging pain, and fell to the pavement. The bullet had gone clear through his body.

De Jesus, who lives at 917 Longwood avenue, said he had formerly lived in the same neighborhood, and occasionally returned to visit friends. He was on his way home when he was shot down.

He was taken to the Flower Fifth Avenue Hospital.

## Says Commies Seek Trips Behind Curtain

Paris, July 22 (AP)—The ministry of interior said today a large number of French Communists within the past few days have been asking passports for trips to Iron Curtain countries.

Officials refused to give any figures, but French papers said 80 Communist deputies had asked passports for themselves and their families. Most are seeking to go to Czechoslovakia.

The interior ministry refused to comment on press reports that international tension is the explanation for what one paper termed the "flight" of the Communists.

## Take Out Cargo Ships

Washington, July 22 (AP)—Five high speed cargo ships, now in moth balls in the Hudson river, will be reactivated along with 15 others for use in the Korean emergency. The Maritime Administration made the announcement yesterday. It also said 12 troop ships will be taken from the west coast mothball fleet and turned over to the military services.

Will Leave Monday  
Members of the Y.M.C.A. Boys' Department will leave by chartered bus Monday at 9 a. m. from the Y for the trip to the Bear Mountain Park. The return trip will be made at 5 p. m. Clarence Correll, youth leader, and junior leaders will be in charge. Boys interested in making the trip are requested to call the Y for reservations.

## Reports Red Desertion

Berlin, July 22 (AP)—Western sources reported today the desertion of Colonel Karl Hermann, chief of the operations department of the Soviet zone border people's police. Hermann was described as the highest ranking East German police officer to flee to West Berlin thus far.

## Leopold Home, Asks for Unity

Brussels, Belgium, July 22 (AP)—King Leopold III came home from exile today and immediately called on all Belgians to avoid further bitter struggle. The nation has been split down the middle by his insistence upon returning to the throne he left 10 years ago after surrendering to the Nazis.

Less than five hours after Leopold landed on Belgian soil, the two main opposition parties—the Socialists and the Liberals—demanded that he abdicate. But in his radio address to the nation a short time later, the king gave no indication as to whether he intended to stay in favor of his son, Prince Baudouin, who came with him.

Word was received that the eight Socialist ministers of state had sent in their collective resignations to the King.

This means they will not attend the Crown Council meeting called by Leopold for this afternoon.

The king received the Social Christian Cabinet this morning along with the presidents of the Senate and the Chamber of Deputies.

Before seeing them he had a family reunion with Queen Mother Elizabeth.

Meanwhile the crowd outside the palace had grown to several thousand persons. They called for the king to appear on the balcony, but he did not respond.

There was not one cheer, nor one single handclap as the monarch landed at heavily-guarded Haren Military Airport. Only a handful of early risers, besides the 8,000 military guards, were present.

## May Take Year Before Cadillac Starts Tanks

Cleveland, July 22 (AP)—It may be nine to 12 months before Cadillac starts building tanks at the Fisher bomber plant near Cleveland Airport.

That was the word from Col. David J. Crawford, commander of the Detroit Arsenal, last night. He said negotiations for the contract still were going on.

Charles E. Wilson, president of General Motors, of which Cadillac is a division, said the negotiations for the tanks would be made at G.M.'s Allison division in Indianapolis.

No announcement of the type of vehicle to be produced was made, but sources in Detroit said it may be a new 28-ton light tank which recently was described by the army as "sensational."

During World War Two, the Fisher bomber plant turned out sections of B-29 bombers. It was built at a cost of \$50,000,000 and has about 1,600,000 feet of floor space.

## Still Expect Attack

Taipei, Formosa, July 22 (AP)—The English language China News said today the Chinese Reds still are preparing feverishly to attack Formosa. The security of the island should not be overestimated no too much reliance put on United States Navy support," it warned.

During World War Two, the Fisher bomber plant turned out sections of B-29 bombers. It was built at a cost of \$50,000,000 and has about 1,600,000 feet of floor space.

## India Ministry Denies New Nehru Message

New Delhi, India, July 22 (AP)—The foreign ministry denied today reports published in the United States that Prime Minister Nehru has sent a new message to U. S. Secretary of State Dean Acheson concerning the Korean war.

In Washington the State Department also denied knowledge of such a note.

The New York Times said this morning the purported note was an appeal to Acheson to use his influence to get Communist China admitted to the United Nations. The United States previously has said the rock-bottom price for peace in Korea is withdrawal of the North Koreans to the 38th parallel. Russia has said she will talk peace until Communist China, a Chinese nationalist China in the United Nations.

## Elected Chairman

wise was taking over the work and wished him well, stating that if he received the support which had been given in the past Red Cross would continue to flourish in the county.

Three of the newly elected members of the board of directors were present, Mrs. Henry Cameron of Ulster Park, Mrs. Alfred Schmid of Kingston and Clarence S. Rowland of Kingston.

## Prices Hit

has been going on at a phenomenal rate. The Commerce Department reported yesterday that retail sales in June outdid any other month in history, allowing for seasonal factors that naturally bring up sales—Christmas time, for example.

Total sales of \$11,915,000,000 in June were 10 per cent above June last year, and 8 per cent above the peak of the 1948 boom, in August of that year.

## Two Youths Held

brock avenue reported to the police that while his car was parked at Washington avenue near North Front street, the allegedly stolen car struck his auto and continued on without stopping. Gualtieri said his car received damage to the left rear fender.

## Fire in Awning

The fire department said today a carelessly thrown cigarette was the probable cause of a small fire in an awning at the Samuel Weisberg store, 271 Fair street, about 11 p. m. Friday. Only slight damage was reported.
